

UK's Fastest Growing Paper Bag Manufacturer

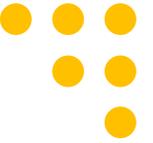

Who We Are

Quality Pack was set up in 2015 and started its manufacturing journey with the production of plastic packaging. With high global demand for environment-friendly and sustainable packaging Quality Pack moved its focus to paper. Currently we operate out of a 40,000sft factory with an additional 50,000sft of storage space and are now one of the leading producers of Flat and Twisted handle paper bags in the UK.

Quality Pack is based in Essex with a secondary factory located in Europe, giving us global reach.

We have invested millions to achieve our aim and are working relentlessly to become one of the biggest names in the industry.

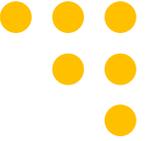

From global restaurant chains to local flour mills, our bags cater to all who choose paper

Diversity in Sustainability

Our bags come in all styles and sizes. Branding is no issue with our 8 color flexographic presses.

And our diverse capacity in conversion machinery allow us to produce bags for all uses which are all food contact safe and fully recyclable.

Global Reach

Our products are shipped across the globe, from retail chains in Ireland or France to pet shops in the United States. Our Locations in the UK and Turkey give us a great advantage when it comes to global distribution.

Achievements

Since 2015, we have shown exceptional growth. Over the last 2 years our capacity has doubled, twice. Along the way we have gained accreditations such as BRC (grade A), ISO 9001:2015 and FSC certification.

Production Capabilities

We have the capacity to produce over 3 Million bags per Day across both of our factories.

That is over 150 tons of paper printed and converted at full capacity every day.

300

Meters Per Minute, is the top operating speed of our flexographic press.

Processes

Slitting

Paper wastage is a global problem. To reduce this and increase productivity our in-house slitters ensure that larger reels are cut down to size and every possible millimeter is used.

Printing

Our state of the art 8 color flexographic press machines can print the most detailed of designs onto a variety of substrates. This takes place at speeds of up to 300 meters /minute. Spectrophotometers ensure that colors are accurately matched.

Bag Making

Machines from some of the worlds leading manufacturers ensure our customers needs are met. Whether they need flat handles for groceries or 2 ply block bottoms for popcorn, our machines can produce these bags with consistency and ease.

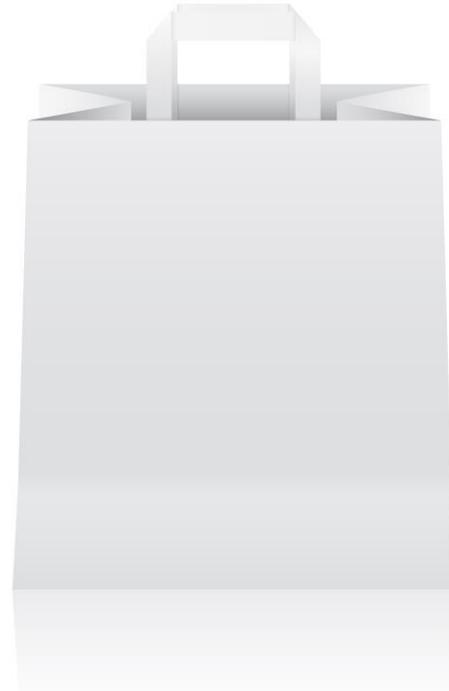

Our Products

Flat Tape Handle

Ideal carrier bag with patch reinforcement.

Block Bottom 'SOS'

Multipurpose grab bag, wide size and substrate range.

Twisted Handle

Esthetic carrier bag with paper rope handle and Patch reinforcement.

Prescription & Flour Bags

Low grammage papers used, generic bags available, a common line in our range.

Food safe production, allows us to produce flour bags for leading mills and supermarkets.

Flat Tape Handle

Size Range (mm)

Width	Gusset	Height
180 - 450	90 - 220	220 - 640

Paper Thickness

GSM

70 - 100

Print

Pantone Colours

Up to 8 Colours

Description

The Flat Tape Handle Carrier Bag is a sustainable replacement for the common plastic "vest" bag. Not only is it fully recyclable and environmentally friendly but also extremely versatile. We use the highest quality, food safe glues and responsibly sourced kraft papers when making this bag. Much like all of our other paper bags.

Size Range (mm)

Width	Gusset	Height
220 - 450	80 - 220	300 - 500

Paper Thickness

GSM

70 - 100

Print

Pantone Colours

Up to 8 Colours

Description

The Twisted Handle Carrier Bag much like the flat tape handle is another sustainable replacement for the common plastic bag. The Twisted handle gives added aesthetic, a reason why this product is now commonly seen in supermarkets, restaurants, Designer Stores and across the wider retail industry.

Twisted Handle

We are constantly investing in our production capabilities, if you cannot find the product you need, just ask. It may be in the pipeline.

Block Bottom 'SOS', Flour & Prescription Bags

Size Range (mm)

Width	Gusset	Height
80 - 450	50 - 220	200 - 600

Paper Thickness

GSM

50 - 100

Print

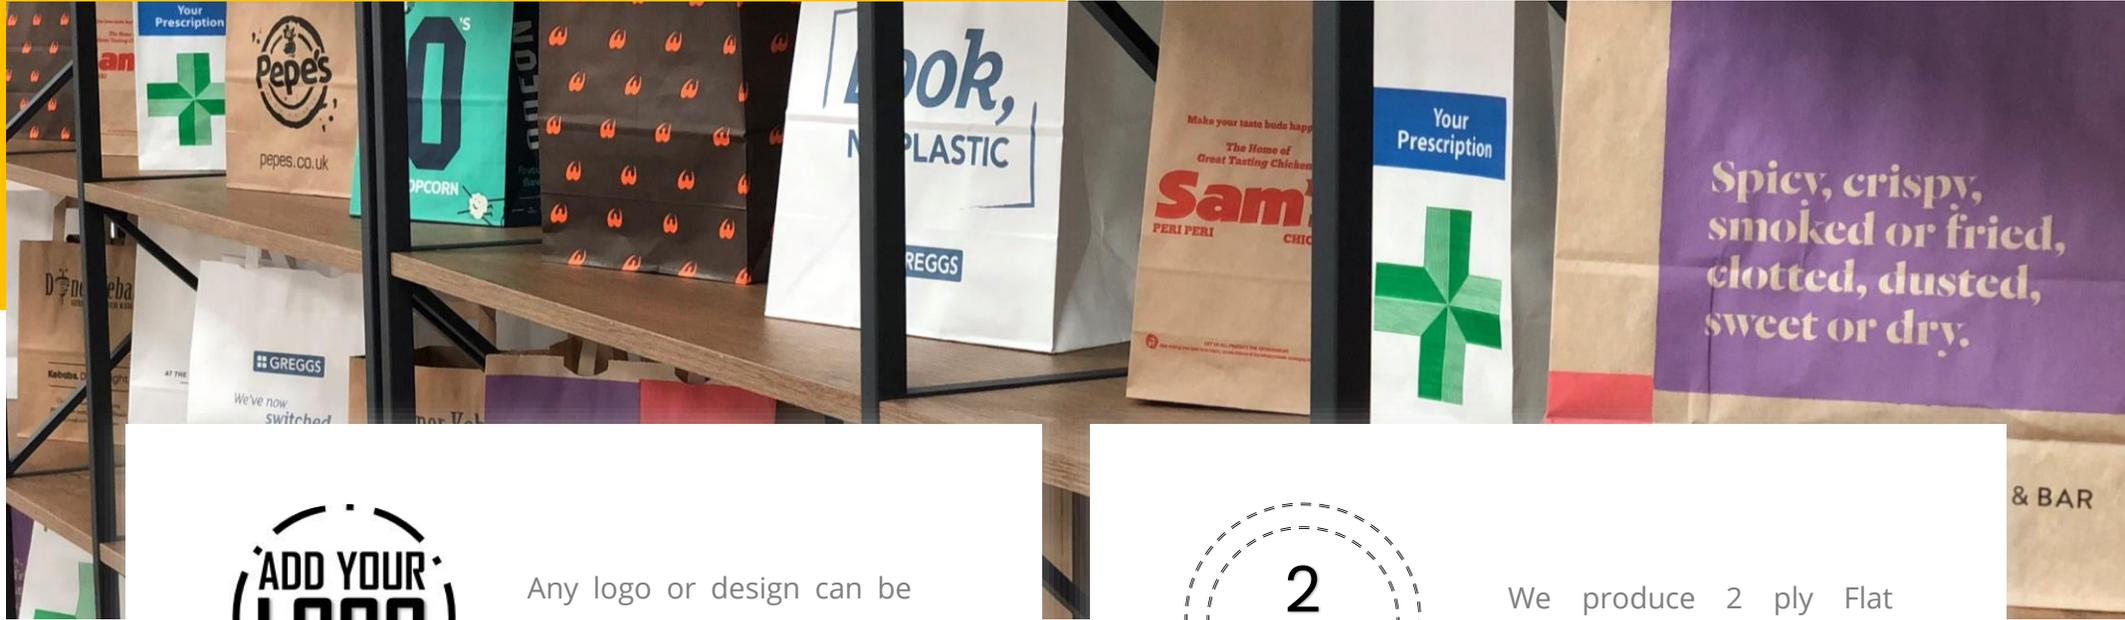

Pantone Colours

Up to 8 Colours

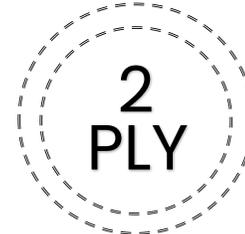

Description

The Block Bottom Bag is a flagship product. This bag can be used in countless circumstances, whether it is in a bakery to serve bread or in a local grocery store serving essentials. With an exceptionally wide range of sizes and potentially large surface this product is highly customisable and very useful.

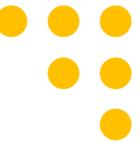

Any logo or design can be printed onto our bags with ease.

We produce 2 ply Flat Handle and Block Bottom bags for extra strength

We use a wide range of substrates; some customers ask for greaseproof to prevent mitigation, some ask for Alu complex to use products in heated cabinets. We work closely with our customers to ensure that sustainable solutions are available for many packaging needs.

Accreditations

ISO 9001

Our ISO helps ensure that customers get consistent, good-quality products and services.

BRCGS

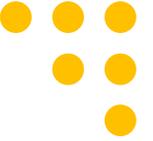

We use the BRC quality management system with a Grade A pass rate.

FSC Chain of Custody

We have full FSC Chain of custody and source our paper from certified sources.
